WE ARE DWK LIFE SCIENCES

YOU KNOW US.

DWK Life Sciences is your global 1 source, end-to-end solution for quality life science packaging and production certified glass and plastic. These containers are configured to improve production efficiencies, simplify logistics and ensure packaging integrity. With you as our primary focus, we leverage our manufacturing expertise and supply chain excellence to ensure you get the right product at the right time...always.

We are pioneers in high quality glass manufacturing dating back over 125 years. Today, you'll recognize the well-known and respected brands we offer: DURAN®, WHEATON® and KIMBLE®. This precision labware mix offers the quality choices you need to do your best work. And, as your packaging partner, we are able to match your workflow needs, reduce complexity and bring down costs.

DWK will help you improve your workflows

Our extensive range of containers provides you with tools and options that fulfill your production, bulk storage and primary packaging needs. Our consultative approach will support your glass and plastic requirements, meet operational objectives, eliminate multi-vendor preparation and reduce inventory management costs—we are your 1 source.

Whether you are working in the IVD, life science reagents, compounding, parenteral pharmaceuticals, assays, biologics, bulk intermediates or APIs sectors—wherever you go, our expertise is right there with you.

Use our WHEATON® CELLLine™ antibody production flasks, roller bottles, DURAN® PURE bottles and shaker/spinner flasks to produce critical products. DWK's containers support your validation and stability studies. For fill processes, we offer high recovery vials and combining products under a single SKU to streamline operations.

DURAN®, WHEATON®, KIMBLE®.

Our services meet your rigorous requirements and expectations

With DWK premium services, our products can be treated, labeled, configured, inventory matched and drop shipped to meet your JIT and run rate needs. Experience the full suite of DWK Life Sciences services:

- Particulate cleaning: USP purified rinse, WFI rinse
- Depyrogenation: dry heat – validated 3-log reduction
- Sterilization: dry heat, autoclave, gamma, E-beam
- Surface treatment: siliconization, silanization, barcoding
- Custom packaging: inventory/run rate matching to improve workflow

What's more, all of our products can be prepared Ready-to-Use or bagged for your specific clean room or other application, and supplied with certification documentation.

DWK Life Sciences supports every phase of the process from lab research through discovery, validation, pilot, production, scale-up, early production and commercialization ensuring packaged content integrity. We meet your highest expectations.

The 1 source for life science packaging & production with you in mind. DWK Life Sciences. Clear Solutions. Clear Choice.

Introducing
DWK Solutions at
dwk.com/packaging

DWK Life Sciences can meet all of your packaging & production needs

Applications

- Biologics processing
- Bulk intermediate storage & packaging
- Diagnostic & reagent packaging
- Finished fill packaging
- Fluid transfer
- Incubation
- Lyophilization
- Process reagent preparation
- Production cell culture
- Vaccine production

Products

- Caps & seals
- Crimpers & decappers
- Diagnostic vials
- DURAN® PURE bottles
- Glass & plastic bottles
- Inserts
- Leak resistant plastic containers & closures
- Microplates
- Roller bottles
- Roller racks & incubators
- Serum bottles

Services

- Serum vials
- Shaker flasks
- Spinner flasks
- Storage & production bottles
- WHEATON® CELLLine™ antibody production flasks
- WHEATON® CompletePAK sterile vial kits
- Barcoding identification services
- Critical cleaning services
- Custom configurations
- Depyrogenation
- Particulate cleaning
- Sterilization
- Surface treatment

DWK Solutions— Experience Our Commitment to You Now!
