

# superior tips for any application, any pipette

# How do we make it easy to select exceptional tips

for all the pipette brands you use?

# It's **ART.**

The Thermo Scientific<sup>™</sup> ART<sup>™</sup> portfolio now offers a complete selection of barrier, non-filtered and specialty tips. It has never been easier to find a tip to fit virtually any pipette or application in your laboratory.

All deliver proven ART quality, performance and reliability, backed by the highest Thermo Scientific standards and worldwide support.

From 10  $\mu$ L to 10 mL barrier and non-filtered tips, to gel loading and wide bore specialty products – every tip is certified to meet the industry's highest standards for molding precision and clarity, and are certified free of RNase, DNase, ATP, and Pyrogens. And each meets the exact specifications of its respective pipette brand manufacturer.

### Thermo Scientific ART tips deliver:

## Maximum sample recovery.

Using advanced **low-retention technology**, the tip's hydrophobic inner surface significantly reduces sample loss to adhesion and maximizes sample recovery.

## ART tips are now available for ALL your applications:

**Pipette Tip with ART Barrier** 

- BARRIER
- NON-FILTERED
- SPECIALTY

# Ultimate protection.

Researchers have made **ART self-sealing barrier tips** their first choice in sample protection. ART barrier tips provide 100% security against aerosols and liquid contamination.

## Pipette Tip with Generic Filter

## **Designed for the way you work.**

ART TIPS

## The Versatile ART Hinged Rack

One-handed access to tips means you don't have to worry about your tips spilling on the bench or floor, maximizing your productivity. Users will often create the safety and security of a hinged rack by using tape – an advantage our new portfolio offers in just three easy steps.

Simply unhinge, turn and realign the cover - now you have a traditional lift-off.

Hinged to Lift-Off in 3 easy steps

## Hinged to Lift-Off in

Open cover to 90° angle and pull back to release.

align to front of the rack.

Place down gently.

### Now you have a lift off unit ready for use and reloading!

Change back to hinged rack for secure storage.

Thermo Scientific ART tips are designed and manufactured to meet customer requirements when working with the most difficult samples:

- radioactive compounds
- viscous materials
- fragile cell lines
- whole blood
- viruses
- difficult proteins
- PCR reagents, and more

## lt's an **ORIGINAL.**

The ART Barrier and Non-Filtered Reload System provides an environmentally-responsible solution without compromising sterility. With offset wells that allow the tips to stack, this advanced system reduces waste and saves bench top and storage space.

#### It's easy to reload

a new insert into an empty rack:

Step 1

While grasping lower portion of the blister sleeve, lift sleeve up off rack and transfer entire sleeve to an empty rack. Make sure to align sleeve knockouts with latch and rear lid posts.

Step 2

Push down with even pressure on the middle of the top insert, which will slide bottom insert into empty tray.

Plastic sleeve is not intended to rest on any counter top without a rack underneath it.

## Multiple packaging options.

Choose the packaging option that best meets your needs, including hinged-rack, bulk and our new stackable reload system. Our reload systems not only use recycled components, they require 40% less plastic than comparable products.

#### Accessories

Cat. No.	Description	Packaging
02682270	ART Empty Rack Small (10 µL, 20 µL NF)	Racks, Sterile, 10 racks/pack, 5 packs/case
02682271	ART Empty Rack Medium (20 µL B, 200 µL, 300 µL)	Racks, Sterile, 10 racks/pack, 5 packs/case
02682272	ART Empty Rack Large (1000 µL)	Racks, Sterile, 8 racks/pack, 4 packs/case
14387069	Reagent Reservoir 25 mL	Polystyrene, Sterile, 10 bags of 10/case
14387070	Reagent Reservoir 25 mL	Polystyrene, Sterile, Individually wrapped, 50/case
14387071	Reagent Reservoir 25 mL w/Divider	Polystyrene, Sterile, 10 bags of 10/case
14387072	Reagent Reservoir 25 mL w/Divider	Polystyrene, Sterile, Individually wrapped, 50/case
14387067	Reagent Reservoir 100 mL	Polystyrene, Sterile, 10 bags of 10/case
14387068	Reagent Reservoir 100 mL	Polystyrene, Sterile, Individually wrapped, 50/case

### Did you know we service ALL pipette brands?

#### Protecting your investment

To improve your laboratory's efficiency, you should be free to focus on your work, not burdened with managing instrument service. We provide a complete portfolio of customized, integrated and innovative services and support solutions designed to help you improve productivity, reduce total cost of ownership and ensure compliance throughout your laboratory – from instrument and equipment acquisition to disposition.

#### Let our expertise complement yours

Explore all the new ways to protect your instruments and equipment at **unitylabservices.com** 

Support Plans | Parts and Consumables | Training, and more
