

ULS eProcurement Manager

Gain Control of Your Lab Procurement

Have your procurement needs become too complex to manage with manual processes?

ULS eProcurement Manager is a scalable, flexible, and easy-to-use tool that can help you gain control with visibility to spending and process efficiencies for your lab supply purchasing needs.

Designed with Fisher Scientific expertise in providing confidence and quality for scientists sourcing laboratory products and services, ULS eProcurement Manager is the only procure-to-pay solution built with science in mind.

Solution benefits

- Search for products and services across categories
- Create and submit purchase orders electronically
- Manage approval workflows
- Reconcile ePOs, packing slips, and eInvoices
- Generate usage and accounting reports
- Connect with internal and supplier back-end systems

Scalable

- Ramp up quickly with professional tools and support
- Access millions of products and thousands of suppliers
- Apply customized pricing

Flexible

- Expand your number of users and workflow sophistication
- Visualize and optimize spend to drive value
- Add services to drive process efficiency

Easy to use

- See real-time product availability and delivery information
- Bring scientists and finance together in a shared platform
- Integrate back-end processes with suppliers (e.g., ePOs, eInvoices)
