

## Lab Essentials For Academic Researchers

Accelerate your synthesis workflow while slowing down your spending

Does your lab need economical solutions that don't compromise on quality? Ramp up productivity while conserving your laboratory budgets with exclusive Fisher Scientific BUCHI Scholar evaporation and automated chromatography essentials.

### Rotavapor® Scholar

- Affordable & reliable evaporation with quality construction
- Configure a stand-alone system or add an integrated vacuum pump & controller
- Expandable system allows you to meet future application needs

Catalog Number	Condenser Type	P+G Glass	Configuration
05-405-002	Dry Ice / Cold Trap	Yes	Stand-alone
05-405-003	Chilled Water / Coil	Yes	Stand-alone
05-405-000	Dry Ice / Cold Trap	Yes	Pump and Controller
05-405-001	Chilled Water / Coil	Yes	Pump and Controller

### Pure Scholar Chromatography

- Flash chromatography system including software & UV detection
- Best-in-class separation with RFID tagging to simplify workflow
- Safe & space-saving with fume enclosure & safety sensors

Catalog Number	Description
11C80500ACA	Pure Scholar Flash Chromatography System with UV detection
