

Critical Cover® Healthcare Products

ComforTech® Lab Coats

Suitable for Use in Controlled Environments

Features & Benefits

The strong, lightweight ComforTech material gives you excellent protection from fluids, light chemical splash and particles without compromising comfort. The unique fabric exhibits a low particle count and a high filtration efficiency rate. The length is appropriately adjusted to size, which provides additional coverage for the wearer.

| Fisher Scientific Catalog No. | Size | QTY |
|-------------------------------|------|-----|

| 19-168-171E | 2X | 25 |
| 19-169-4044 | 3X | 25 |
| 19-169-4045 | 4X | 25 |

BarrierTech® Gown

A Fluid Resistant Solution

Features & Benefits

BarrierTech gowns are manufactured using a proprietary blend of polypropylene and polyethylene material that provides protection for the wearer from particles, fluids and light chemical splash. These gowns offer a durable and fluid resistant solution for both your lab and/or production areas. BarrierTech material also has a low particle count for use in Controlled Environments. Banded ties are attached to the neck and waist for easy and secure closure.
