## **Returnable Solvent Containers**

Using large volumes of solvents? Experiencing contamination? Spending too much time rinsing bottles?

Fisher Scientific chemical specialists can help you solve these problems and streamline your operations with returnable solvent containers.

- Reduce costs and improve productivity
- Eliminate frequent solvent container changes
- Shorten run times
- Connect solvents directly to multiple instruments or dispensing points
- Consolidate lot numbers
- Reduce waste and related disposal costs
- Decrease safety risks associated with glass bottles and flammable chemicals

Plus, you can request custom solvent blends to meet your specific requirements, all while protecting purity, guarding against user exposure, and minimizing the risk of spills and broken bottles.

| Supplier                        | Program Name   | Solvents and Reagents  | Sizes   |
