Liquid Hand Sanitizer, 80% Alcohol

Stop the risk of cross-contamination—no rinsing required

This liquid hand sanitizer is made following FDA/WHO Guidelines with 80% alcohol content to kill 99.9% of bacteria, germs and viruses. Since no rinsing or drying is required, each application is fast and easy.

- Made in accordance with the World Health Organization (WHO) Formulation
- Produced with zero nonessential additives
- Unscented
- Low viscosity provides a water-like consistency that is quick drying
- Available for sale in the continental United States only, not available for sale in Alaska or Hawaii
