Protecting What Matters Most

## Assessment

### SmartCheck Safety Software and Management System

#### Comprehensive Facility and Safety Assessments

Imagine all your information in one place! Automate tedious tasks, reduce costly errors, and protect lab faculty and staff with the fully configurable Brady™ SmartCheck™ Safety Software & Management System.

#### About

Managing safety workflows, processes, and data across workers, equipment, and facilities can be daunting. Fully configurable SmartCheck safety software delivers value where and how you need it. Our safety experts will work with you to evaluate your program and select the modules designed to overcome your challenges.

Say hello to the first all-in-one solution built to take you from identification to resolution as fast and effectively as possible. Automate tedious tasks, prevent costly errors, protect your workers and your business, and analyze the wealth of data under your roof.

#### Key Benefits

With right-on-site Brady printing capabilities and expert product recommendations, you can mobilize people and products fast to move from issue identification to resolution at the point of need.

- Connect process and people by organizing under a single online system to help keep everyone you need in the know and on the go
- Uncover and solve safety issues with digitized and automated inspections and audits to better identify, resolve, and recall hazards and incidents
- Meet policies and regulations by logging and tracking all chemical SDS and auto-populate compliant labels for printing, including GHS
- Includes training and support to help you and your employees
