Protecting What Matters Most

## Sustainability

### Hand Protection

#### Glove Waste Sustainability Calculator

Estimate your glove waste and reduce your environmental impact by using the SW waste sustainability calculator.

#### About

SW can help you meet your zero waste goals by providing a truly sustainable option. Nitrile gloves trashed in landfills will take centuries to biodegrade. With EcoTek™ gloves, there is sustainable technology built right into them. The gloves break down (or biodegrade) by 92.6% in a landfill in only 2.5 years.

Measure your landfill impact and waste reduction with SW's Ecotek biodegradable gloves. Reach your sustainability goal by conducting an SW glove waste audit to better understand waste-handling cost savings and employee efficiency.

#### Key Benefits

Be part of the solution to the growing waste problem. Implement a sustainable product solution that decreases operational costs and reduces waste.

- Reduces landfill waste
- Supports green programs
- Reduces carbon footprint
- Increases employee efficiency
- Prevents waste pollution
