Full Staff cGMP Training on Cleaning Process and SOPs

The Vileda™ Professional Technical Team will review your current cleaning standard operating procedures (SOPs) and provide staff training to ensure compliance and mitigate the risk of cross-contamination within your facility.

About

The Vileda™ Professional Technical Team will review your site cleaning SOP, offer updated regulatory recommendations, and train your facility staff or cleaning contractor in accordance with the current chapter of the Institute of Environmental Sciences and Technology (IEST) *Cleanroom Housekeeping: Operating and Monitoring Procedures*.

With the recent changes to the IEST cGMP chapter on cleaning, it is important to review and update your facility's cleaning protocol with the assistance of Vileda™ Professional, an industry leader in contamination control and validation.

Key Benefits

Vileda™ Professional will bring your facility staff (quality control, production, and facilities services) value by conducting a Facility Contamination Control Staff Training to reduce the risks associated with cross-contamination during the cleaning process and reeducate your staff, ensuring compliance and best practices.

- Train new employees
- Re-train existing staff
- Update records and staff training
- Be audit ready with GMP cleaning compliance
- Get education on new regulatory requirements
