2. Hazard(s) identification

## Classification

Tel: (201) 796-7100

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

Skin Corrosion/Irritation Serious Eye Damage/Eye Irritation Category 1 B Category 1

### Label Elements

Signal Word Danger

#### Hazard Statements

Causes severe skin burns and eye damage

#### Precautionary Statements Prevention

Do not breathe dust/fume/gas/mist/vapors/spray

Wash face, hands and any exposed skin thoroughly after handling

Wear protective gloves/protective clothing/eye protection/face protection

#### Response

Immediately call a POISON CENTER or doctor/physician

Inhalation

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing

Skin

IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower Wash contaminated clothing before reuse

## Eyes

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing **Ingestion** 

IF SWALLOWED: Rinse mouth. DO NOT induce vomiting

Storage

Store locked up

Disposal

Dispose of contents/container to an approved waste disposal plant

Hazards not otherwise classified (HNOC)

Contact with water liberates toxic gas

# 3. Composition/Information on Ingredients

| Component                               |   | CAS No  | Weight %                                 |  |
|---|---|---|--|--|
| Phosphorochloridic acid, diphenyl ester |   | 2524-64-3   | 98                                       |  |
| 4. First-aid measures                   |   |   |  |  |
| Eye Contact                             |   | edical attention is required. Rinse imme<br>or at least 15 minutes. | diately with plenty of water, also under |  |
| Skin Contact                            | Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Immediate medical attention is required.  |   |  |  |
| Inhalation                              | Remove from exposure, lie down. Remove to fresh air. If breathing is difficult, give oxygen.<br>If not breathing, give artificial respiration. Immediate medical attention is required.   |   |  |  |
| Ingestion                               | Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Drink plenty of water. If possible drink milk afterwards.  |   |  |  |
| Most important symptoms and effects     | Causes burns by all exposure routes. Product is a corrosive material. Use of gastric lavage or emesis is contraindicated. Possible perforation of stomach or esophagus should be investigated: Ingestion causes severe swelling, severe damage to the delicate tissue and danger of perforation |   |  |  |
| Notes to Physician                      | Treat symptomatically   |   |  |  |

# 5. Fire-fighting measures

| Suitable Extinguishing Media                 | Carbon dioxide (CO 2). Dry chemical. Chemical foam. |
|--|---|
| Unsuitable Extinguishing Media               | No information available                            |
| Flash Point                                  | > 112 °C / > 233.6 °F                               |
| Method -                                     | No information available                            |
| Autoignition Temperature<br>Explosion Limits | No information available                            |
| Upper  | No data available                                   |
| Lower  | No data available                                   |
| Sensitivity to Mechanical Impac              |   |
| Sensitivity to Static Discharge              | No information available                            |

#### **Specific Hazards Arising from the Chemical**

Contact with water liberates toxic gas. Water reactive. Produce flammable gases on contact with water.

### Hazardous Combustion Products

Carbon monoxide (CO). Carbon dioxide (CO<sub>2</sub>). Oxides of phosphorus. Hydrogen chloride gas.

### **Protective Equipment and Precautions for Firefighters**

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

13. Disposal considerations

 Waste Disposal Methods
 Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations to ensure complete and accurate classification.
