2. Hazard(s) identification

#### Classification

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

| Flammable liquids                                | Category 2 |
|--|------------|
| Acute oral toxicity                              | Category 3 |
| Serious Eye Damage/Eye Irritation                | Category 1 |
| Skin Sensitization                               | Category 1 |
| Specific target organ toxicity (single exposure) | Category 3 |
| Target Organs - Respiratory system.              | 0,1        |

Label Elements

Signal Word Danger

Hazard Statements

Highly flammable liquid and vapor Toxic if swallowed May cause an allergic skin reaction Causes serious eye damage May cause respiratory irritation

#### Precautionary Statements Prevention

Wash face, hands and any exposed skin thoroughly after handling Do not eat, drink or smoke when using this product Wear protective gloves/protective clothing/eye protection/face protection Avoid breathing dust/fume/gas/mist/vapors/spray Contaminated work clothing should not be allowed out of the workplace Keep away from heat/sparks/open flames/hot surfaces. - No smoking Keep container tightly closed Ground/bond container and receiving equipment Use explosion-proof electrical/ventilating/lighting equipment Use only non-sparking tools Take precautionary measures against static discharge Skin If skin irritation or rash occurs: Get medical advice/attention Wash contaminated clothing before reuse IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower Eves IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do, Continue rinsing Immediately call a POISON CENTER or doctor/physician Ingestion IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician Rinse mouth Fire In case of fire: Use CO2, dry chemical, or foam for extinction Storage

#### Storage Store locked up

Store in a well-ventilated place. Keep cool

#### Disposal

Dispose of contents/container to an approved waste disposal plant

#### Hazards not otherwise classified (HNOC)

Lachrymator (substance which increases the flow of tears) Stench

### 3. Composition/Information on Ingredients

| Component       | CAS No   | Weight % |
|-----------------|----------|----------|
| Thioacetic acid | 507-09-5 | >95      |

#### 4. First-aid measures

#### **General Advice**

Immediate medical attention is required. Show this safety data sheet to the doctor in

| Eye ContactRinse immediately with plenty of water, also under the eyelids, for at least 15 minutes.<br>Immediate medical attention is required.Skin ContactImmediate medical attention is required. Wash off immediately with plenty of water for at<br>least 15 minutes.InhalationRemove to fresh air. If breathing is difficult, give oxygen. Immediate medical attention is<br>required. Do not use mouth-to-mouth method if victim ingested or inhaled the substance;<br>give artificial respiration with the aid of a pocket mask equipped with a one-way valve or<br>other proper respiratory medical device.IngestionDo NOT induce vomiting. Call a physician or poison control center immediately.Most important symptoms and<br>effectsDifficulty in breathing. Causes burns by all exposure routes. May cause allergic skin<br>reaction. Causes severe eye damage. Causes eye burns. Inhalation of high vapor<br>concentrations may cause symptoms like headache, dizziness, tiredness, nausea and<br>vomiting: Product is a corrosive material. Use of gastric lavage or emesis is<br>contraindicated. Possible perforation of stomach or esophagus should be investigated:<br>lingestion causes severe swelling, severe damage to the delicate tissue and danger of<br>perforation: Symptoms of allergic reaction may include rash, itching, swelling, trouble<br>breathing, tingling of the hands and feet, dizziness, lightheadedness, chest pain, muscle<br>pain or flushing<br>Treat symptomatically |                    | attendance.   |
|--|--------------------|---|

|  | Notes to Physician |   |

#### 5. Fire-fighting measures

| Suitable Extinguishing Media   | Water spray, carbon dioxide (CO2), dry chemical, alcohol-resistant foam. Water mist may be used to cool closed containers. |
|--|--|
| Unsuitable Extinguishing Media   | No information available   |
| Flash Point  | 18 °C / 64.4 °F  |
| Method -   | No information available   |
| Autoignition Temperature   | 427 °C / 800 °F  |
| Explosion Limits<br>Upper<br>Lower<br>Sensitivity to Mechanical Impac<br>Sensitivity to Static Discharge | 16%<br>5.4%<br>In o information available<br>No information available  |

#### **Specific Hazards Arising from the Chemical**

Flammable. Vapors may travel to source of ignition and flash back. Will form explosive mixtures with air. Thermal decomposition can lead to release of irritating gases and vapors. In the event of fire and/or explosion do not breathe fumes. Containers may explode when heated. Vapors may form explosive mixtures with air.

#### **Hazardous Combustion Products**

Carbon monoxide (CO). Carbon dioxide (CO<sub>2</sub>). Sulfur oxides. Sulfides. Thermal decomposition can lead to release of irritating gases and vapors.

#### **Protective Equipment and Precautions for Firefighters**

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Thermal decomposition can lead to release of irritating gases and vapors.

| NFPA   |              |             |                  |
|--------|--------------|-------------|------------------|
| Health | Flammability | Instability | Physical hazards |
| 3      | 3            | U           | N/A              |

|   | 6. Accidental release measures   |
|---|--|
| Personal Precautions<br>Environmental Precautions | Use personal protective equipment as required. Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak. Ensure adequate ventilation. Remove all sources of ignition. Take precautionary measures against static discharges. Should not be released into the environment. See Section 12 for additional Ecological   |
|   | Information.   |
| Methods for Containment and Cle<br>Up             | an Keep in suitable, closed containers for disposal. Soak up with inert absorbent material.<br>Remove all sources of ignition. Use spark-proof tools and explosion-proof equipment.  |
|   | 7. Handling and storage  |
| Handling  | Do not breathe mist/vapors/spray. Do not get in eyes, on skin, or on clothing. Use only<br>under a chemical fume hood. Wear personal protective equipment/face protection. Do not<br>ingest. If swallowed then seek immediate medical assistance. Keep away from open<br>flames, hot surfaces and sources of ignition. Use only non-sparking tools. To avoid ignition<br>of vapors by static electricity discharge, all metal parts of the equipment must be grounded.<br>Take precautionary measures against static discharges. |
| Storage.  | Keep in a dry place. Keep container tightly closed. Keep away from heat, sparks and flame.<br>Flammables area. Keep away from heat/sparks/open flames/hot surfaces No smoking.<br>Keep containers tightly closed in a cool, well-ventilated place. Keep containers tightly<br>closed in a dry, cool and well-ventilated place. Keep in properly labeled containers. To<br>maintain product quality: Keep refrigerated. Incompatible Materials. Strong bases. Metals.   |
| 8. [  | Exposure controls / personal protection  |
| Exposure Guidelines                               | This product does not contain any hazardous materials with occupational exposure limitsestablished by the region specific regulatory bodies.   |
| Engineering Measures                              | Ensure adequate ventilation, especially in confined areas. Ensure that eyewash stations and safety showers are close to the workstation location. Use explosion-proof electrical/ventilating/lighting equipment.   |
| Personal Protective Equipment                     |  |
| Eye/face Protection                               | Tight sealing safety goggles. Face protection shield.  |
| Skin and body protection                          | Wear appropriate protective gloves and clothing to prevent skin exposure. Impervious clothing. Chemical resistant apron. Boots. Impervious gloves.   |
| Respiratory Protection                            | Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced.  |
| Hygiene Measures                                  | Keep away from food, drink and animal feeding stuffs. When using do not eat, drink or smoke. Contaminated work clothing should not be allowed out of the workplace. Provide regular cleaning of equipment, work area and clothing. Avoid contact with skin, eyes or clothing. Remove and wash contaminated clothing and gloves, including the inside, before re-use. Wear suitable gloves and eye/face protection.   |
|   | 9. Physical and chemical properties  |

|  |                               |
|  | 10. Stability and reactivity  |

| To. Stability and reactivity  |   |  |
|---|---|--|
| Reactive Hazard   | None known, based on information available  |  |
| Stability   | Stable under normal conditions.   |  |
| Conditions to Avoid   | Temperatures above 85°C. Keep away from open flames, hot surfaces and sources of ignition. Incompatible products. Exposure to moist air or water. Exposure to air or moisture over prolonged periods. |  |
| Incompatible Materials  | Strong bases, Metals  |  |
| Hazardous Decomposition Products Carbon monoxide (CO), Carbon dioxide (CO <sub>2</sub> ), Sulfur oxides, Sulfides, Thermal decomposition can lead to release of irritating gases and vapors |   |  |
| Hazardous Polymerization  | No information available.   |  |
| Hazardous Reactions   | None under normal processing.   |  |

| Symptoms / effects,both acute and delayed          | Inhalation of high vapor concentrations may cause symptoms like headache, dizziness, tiredness, nausea and vomiting: Product is a corrosive material. Use of gastric lavage or emesis is contraindicated. Possible perforation of stomach or esophagus should be investigated: Ingestion causes severe swelling, severe damage to the delicate tissue and danger of perforation: Symptoms of allergic reaction may include rash, itching, swelling, trouble breathing, tingling of the hands and feet, dizziness, lightheadedness, chest pain, muscle pain or flushing |
| Endocrine Disruptor Information                    | No information available   |
| Other Adverse Effects                              | The toxicological properties have not been fully investigated. See actual entry in RTECS for complete information.   |

# 12. Ecological information

Ecotoxicity Do not empty into drains.

| Component                    | Freshwater Algae        | Freshwater Fish   | Microtox                  | Water Flea           |  |  |
|------------------------------|-------------------------|---|---------------------------|----------------------|--|--|
| Thioacetic acid              | Not listed              | Not listed  | Not listed                | EC50 = 2.1 mg/L 48h  |  |  |
| Persistence and Degrada      | ability Soluble in wa   | ater Persistence is unlikely  | based on information ava  | ilable.              |  |  |
