1,10-Phenanthroline

SECTION 1: Identification of the substance/mixture and of the supplier

Product name: 1,10-Phenanthroline

Manufacturer/Supplier Trade name:

Manufacturer/Supplier Article number: S25461C

Recommended uses of the product and restrictions on use:

Manufacturer Details:

AquaPhoenix Scientific, Inc
9 Barnhart Drive, Hanover, PA 17331
(717) 632-1291

Supplier Details:

Fisher Science Education
6771 Silver Crest Road, Nazareth, PA 18064
(724)517-1954

Emergency telephone number:

Fisher Science Education
Emergency Telephone No.: 800-535-5053

SECTION 2: Hazards identification

Classification of the substance or mixture:

Toxic

Acute toxicity (oral, dermal, inhalation), category 3

Environmentally Damaging

Acute hazards to the aquatic environment, category 1

AcTox Oral. 3.

Aquatic AcTox. 1.

Aquatic ChrTox. 1.

Signal word: Danger

Hazard statements:

Toxic if swallowed.

Very toxic to aquatic life with long lasting effects.

Precautionary statements:

If medical advice is needed, have product container or label at hand.

Keep out of reach of children.

Read label before use.

Wash ... thoroughly after handling.

Do not eat, drink or smoke when using this product.

Avoid release to the environment.

IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.

Rinse mouth.

Collect spillage.

Store locked up.

SECTION 3: Composition/information on ingredients

Ingredients:

CAS 5144-89-8

1,10-Phenanthroline monohydrate

100 %

Percentages are by weight

SECTION 4: First aid measures

Description of first aid measures

After inhalation:

Move exposed individual to fresh air. Loosen clothing as necessary and position individual in a comfortable position. If breathing difficult, give oxygen. Do not perform mouth-to-mouth on an unconscious person. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Immediately get medical assistance.

After skin contact:

Flush the skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Seek medical attention if irritation persists or if concerned.

After eye contact:

Protect unexposed eye. Rinse or flush exposed eye gently using water for 15-20 minutes. Seek medical attention if irritation persists or if concerned.

After swallowing:

Rinse mouth thoroughly. Do not induce vomiting. Have exposed individual drink sips of water. Immediately get medical assistance.

Most important symptoms and effects, both acute and delayed:

Shortness of breath. Irritation. Nausea. Headache.

Indication of any immediate medical attention and special treatment needed:

Safety Data Sheet

Effective date : 01.07.2015

Page 3 of 7

1,10-Phenanthroline

If seeking medical attention, provide SDS document to physician. Physician should treat symptomatically.

SECTION 5: Firefighting measures

Extinguishing media

Suitable extinguishing agents:

Use water, dry chemical, chemical foam, carbon dioxide, or alcohol-resistant foam.

Unsuitable extinguishing agents: None

Special hazards arising from the substance or mixture:

No data available.

Advice for firefighters:

Protective equipment:

Wear protective eyewear, gloves, and clothing. Refer to Section 8.

Additional information (precautions):

Do not inhale gases, fumes, dust, mist, vapor, and aerosols.

SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures:

Ensure adequate ventilation. Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapor and mists below the applicable workplace exposure limits (Occupational Exposure Limits-OELs) indicated above.

Environmental precautions:

Prevent from reaching drains, sewer or waterway. Discharge into the environment must be avoided.

Methods and material for containment and cleaning up:

If necessary use trained response staff or contractor. Vacuum or sweep up material and place into a suitable disposal container. Wear a self-contained breathing apparatus and appropriate personal protection. Refer to Section 8. Avoid generating dust. Do not let this chemical enter the environment. Follow proper disposal methods. Refer to Section 13.

Reference to other sections: None

SECTION 7: Handling and storage

Precautions for safe handling:

Follow good hygiene procedures when handling chemical materials. Refer to Section 8. Minimize dust generation. Do not get in eyes, on skin, or on clothing. Do not ingest or inhale. Use under a fume hood. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. Do not eat, drink, smoke, or use personal products when handling chemical substances. Use only in well ventilated areas.

Conditions for safe storage, including any incompatibilities:

Store in a cool location. Provide ventilation for containers. Keep container tightly sealed.

SECTION 8: Exposure controls/personal protection

Control Parameters:

, , OSHA PEL TWA (Total Dust) 15 mg/m³ (50 mppcf*).
, , ACGIH TLV TWA (inhalable particles) 10 mg/m³.

Safety Data Sheet

according to 29CFR1910/1200 and GHS Rev. 3

Effective date : 01.07.2015

Page 4 of 7

1,10-Phenanthroline

Appropriate Engineering controls:	Use only in a chemical fume hood. Emergency eye wash fountains and safety showers should be available in the immediate vicinity of use or handling. Ensure that dust-handling systems (exhaust ducts, dust collectors, vessels, and processing equipment) are designed to prevent the escape of dust into the work area.
Respiratory protection:	Use only under a chemical fume hood. A respiratory protection program that meets OSHA's 29 CFR 1910.134 and ANSI Z88.2 requirements or European Standard EN 149 must be followed whenever workplace conditions warrant respirator use.
Protection of skin:	Select glove material impermeable and resistant to the substance. Select glove material based on rates of diffusion and degradation.
Eye protection:	Safety glasses with side shields or goggles.
General hygienic measures:	Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Before wearing wash contaminated clothing. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices.

SECTION 9: Physical and chemical properties

Appearance (physical state, color):	White solid	Explosion limit lower:	Non Explosive
		Explosion limit upper:	Non Explosive
Odor:	Odorless	Vapor pressure at 20°C:	Not Available
Odor threshold:	Not Available	Vapor density:	6.2
pH-value:	Not Available	Relative density:	Not Available
Melting/Freezing point:	>98°C	Solubilities:	Soluble in water.
Boiling point/Boiling range:	Not Available	Partition coefficient (n-octanol/water):	Not Available
Flash point (closed cup):	Not Available	Auto/Self-ignition temperature:	Not Available
Evaporation rate:	Not Available	Decomposition temperature:	Not Available
Flammability (solid, gaseous):	Not Available	Viscosity:	a. Kinematic: Not Available b. Dynamic: Not Available
Density at 20°C:	Not Available		

SECTION 10: Stability and reactivity

Reactivity: None

Chemical stability:

Hygroscopic: absorbs moisture or water from the air.

Possible hazardous reactions: None

Conditions to avoid:

Incompatible materials. Dust generation. Exposure to moisture or water.

Incompatible materials:

Strong acids. Strong oxidizers.

Hazardous decomposition products:

Carbon oxides (CO, CO₂). Nitrogen oxides (NO, NO₂).

SECTION 11: Toxicological information

Acute Toxicity:

Oral:

LD50 Oral - Rat - 132 mg/kg

Chronic Toxicity: No additional information.

Corrosion Irritation: No additional information.

Sensitization: No additional information.

Numerical Measures: No additional information.

Carcinogenicity:

Not listed as a carcinogen (ACGIH, IARC, NTP): 1,10-Phenanthroline

Mutagenicity: No additional information.

Reproductive Toxicity:

Adverse reproductive effects have occurred in experimental animals.

SECTION 12: Ecological information

Ecotoxicity: No additional information.

Persistence and degradability:

Not persistent.

Bioaccumulative potential:

Bioaccumulative.

Mobility in soil: No additional information.

Other adverse effects:

An environmental hazard cannot be excluded in the event of unprofessional handling or disposal. Very toxic to aquatic life with long lasting effects.

SECTION 13: Disposal considerations

Waste disposal recommendations:

Do not allow product to reach sewage system or open water. It is the responsibility of the waste generator to properly characterize all waste materials according to applicable regulatory entities (US 40CFR262.11).

Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste.

Chemical waste generators must also consult local, regional, and national hazardous waste regulations. Ensure complete and accurate classification.
