After skin contact:

Wash affected area with soap and water. Wash hands and exposed skin with soap and plenty of water for 15-20 minutes. Remove contaminated clothing and shoes while rinsing. Seek medical attention if irritation persists or if concerned. Before wearing wash contaminated clothing.

After eye contact:

Protect unexposed eye. Immediately flush eyes with water for at least 15 minutes. Immediately get medical assistance.

After swallowing:

Rinse mouth thoroughly. Do not induce vomiting. Immediately get medical assistance.

Most important symptoms and effects, both acute and delayed:

Shortness of breath. Irritation. Nausea. Headache.

Indication of any immediate medical attention and special treatment needed:

If seeking medical attention, provide SDS document to physician. Physician should treat symptomatically.

SECTION 5: Firefighting measures

Extinguishing media

Suitable extinguishing agents:

Water spray can keep containers cool. Use carbon dioxide, dry chemical, or foam.

Unsuitable extinguishing agents:

Water may be ineffective.

Special hazards arising from the substance or mixture:

Thermal decomposition can lead to release of irritating gases and vapors.

Advice for firefighters:

Protective equipment:

Wear protective eyewear, gloves, and clothing. Refer to Section 8.

Additional information (precautions):

Remove all sources of ignition. Avoid contact with skin, eyes, and clothing. Take precautions against static discharges.

SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures:

Ensure adequate ventilation. Use spark-proof tools and explosion-proof equipment. Ensure that dust-handling systems (exhaust ducts, dust collectors, vessels, and processing equipment) are designed to prevent the escape of dust into the work area.

Environmental precautions: None

Methods and material for containment and cleaning up:

If necessary use trained response staff or contractor. Absorb with a noncombustible absorbent material such as sand or earth and containerize for disposal. Refer to Section 13. Clean up spills immediately. Observe precautions for protective equipment. Ventilate area of leak or spill.

Reference to other sections: None

SECTION 7: Handling and storage

Precautions for safe handling:

Do not eat, drink, smoke, or use personal products when handling chemical substances. Use only in well ventilated areas. Do not eat, drink, smoke, or use personal products when handling chemical substances. Wash hands before breaks and immediately after handling the product. Do not inhale gases, fumes, dust, mist, vapor,

and aerosols. Follow good hygiene procedures when handling chemical materials. Refer to Section 8.

Conditions for safe storage, including any incompatibilities:

Store in a cool location. Provide ventilation for containers. Avoid storage near extreme heat, ignition sources or open flame. Keep container tightly sealed.

SECTION 8: Exposure controls/personal protection

Control Parameters:

71-23-8, n-Propyl Alcohol , ACGIH: 100 ppm TWA.
71-23-8, n-Propyl Alcohol , NIOSH: 250 ppm STEL; 625 mg/m³ STEL.
71-23-8, n-Propyl Alcohol , NIOSH: 200 ppm TWA; 500 mg/m³ TWA.

Appropriate Engineering controls:

Ensure that dust-handling systems (exhaust ducts, dust collectors, vessels, and processing equipment) are designed to prevent the escape of dust into the work area. Emergency eye wash fountains and safety showers should be available in the immediate vicinity of use or handling.

Respiratory protection:

Not required under normal conditions of use. Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N100 (US) or type P3 (EN 143) respirator cartridges as a backup to engineering controls. When necessary use NIOSH approved breathing equipment.

Protection of skin:

Select glove material impermeable and resistant to the substance. Select glove material based on rates of diffusion and degradation.

Eye protection:

Safety glasses with side shields or goggles.

General hygienic measures:

Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Perform routine housekeeping.
