Protecting What Matters Most

## Training

### Lockout/Tagout

#### Lockout/Tagout Authorized Employee Training

Let Brady help safeguard your employees with their comprehensive lockout/tagout (LOTO) training. In addition to a customized format, the included current best practices also help create awareness and participation among your employees.

#### About

With Brady's LOTO training, you will receive documented lockout/tagout training to meet OSHA requirements, custom training tools to sustain ongoing training requirements, certifications of completion, rosters and/or quizzes (if requested), and hands-on demonstrations.

Brady's training is custom developed using your lockout program with sessions that help create better awareness and participation among your employees, encouraging them to take the items they have learned in training and apply them to their everyday job tasks.

#### Key Benefits

Brady's safety professionals will review your program and provide a customized program that works for your facility and employees.

- Safety professionals will develop your custom training program prior to coming on-site
- Training includes both classroom and on-the-floor application, so employees understand the use of devices and apply what was learned to your equipment
- While on-site, Brady professionals can lead up to two classroom sessions per day, depending on your needs
- Once the training is complete, you will receive a certificate of completion and custom training materials to sustain ongoing training requirements
- Brady also offers a train-the-trainer service for companies that wish to bring their training curriculum in house
