### Contamination Control

#### Biodecontamination Services and Solutions

Contamination can have disastrous effects throughout an organization that can potentially compromise patient safety, research, and production. Midwest Pathogen Services offers contamination remediation solutions for controlled environments as found throughout the biotechnology, pharmaceutical, and research industries.

Midwest Pathogen Services can address your specific needs, minimize downtime, and ensure bioburden reduction levels are met in order to get your operation back up and running. We specialize in managing and facilitating remediation projects ranging from small pieces of equipment such as biological safety cabinets, incubators, and isolators to small research and BSL-3 labs, all the way to entire facilities—including animal vivariums. We decontaminate and protect critical areas from harmful viruses, bacteria, fungi, and spores utilizing a variety of techniques.

#### About

Midwest Pathogen's biodecontamination services and solutions also:

- Provide guidance on highly effective decontamination protocols, as well as consulting, throughout the entire equipment qualification and validation process
- Assist customers to meet USP, ISO, FDA, and federal regulatory guidelines and requirements
- Help set up new research areas; facilitate changes in research protocols or projects; and provide full facility decommissioning
- Manage regular and periodic cleanings (weekly, monthly, or quarterly terminal services options available)
- Utilize decontamination reports and biological indicators (BIs) to confirm bioburden reduction

Call customer service: 1-800-766-7000

#### In Canada

Order online: [fishersci.ca](http://fishersci.ca)

Fax an order: 1-800-463-2996

Call customer service: 1-800-234-7437

#### Key Information

##### Service or Program Type

- Contamination control
- cGMP facility cleaning assesment
- Risk assesment

##### Suggested Safety Area(s)

- Lab safety
- Facility safety
- Controlled environments
- Production

##### Region(s)

United States

##### Cost

Fee-based

##### Minimums

None
